EVERY GENUINE COPY OF THIS BOOK HAS A HOLOGRAM

In our endeavour to protect you against counterfeit/fake books, we have pasted a copper hologram over the cover of this book. The hologram displays the full visual image, unique 3D multi-level, multi-colour effects of our logo from different angles when tilted or properly illuminated under a single light source, such as 3D depth effect, kinetic effect, pearl effect, gradient effect, trailing effect, emboss effect, glitter effect, randomly sparking tiny dots, micro text, laser numbering, etc.

A fake hologram does not display all these effects.

Always ask the bookseller to put his stamp on the first page of this book.

All Rights Reserved: No part of this book, including its style and presentation, can be reproduced, stored in a retrieval system, or transmitted in any form or by any means—electronic, mechanical, photocopying, recording or otherwise without the prior written consent of the publishers. Exclusive publication, promotion and distribution rights reserved with the Publishers.

Warning: An unauthorised act done in relation to a copyright work may result in both civil claim for damages and criminal prosecution.

Special Note: Photocopy or Xeroxing of educational books without the written permission of publishers is illegal and against Copyright Act. Buying and Selling of pirated books is a criminal offence. Publication of a key to this book is strictly prohibited.

General: While every effort has been made to present authentic information and avoid errors, the author and the publishers are not responsible for the consequences of any action taken on the basis of this book.

Limits of Liability/Disclaimer of Warranty: The publisher and the author make no representation or warranties with respect to the accuracy or completeness of the contents of this work and specifically disclaim all warranties, including without limitation warranties of fitness for a particular purpose. No warranty may be created or extended by sales or promotional materials. The advice and strategies contained therein may not be suitable for every situation. This work is sold with the understanding that the publisher is not engaged in rendering legal, accounting, or other professional services. If professional assistance is required, the services of a competent professional person should be sought. Neither the publishers nor the author shall be liable for damages arising herefrom.

Disclaimer: The publishers have taken all care to ensure highest standard of quality as regards typesetting, proofreading, accuracy of textual material, printing and binding. However, they accept no responsibility for any loss occasioned as a result of any misprint or mistake found in this publication.

Author's Acknowledgement : The writing of a Textbook always involves creation of a huge debt towards innumerable author's and publications. We owe our gratitude to all of them. We acknowledge our indebtedness in extensive footnotes throughout the book. If, for any reason, any acknowledgement has been left out we beg to be excused. We assure to carry out correction in the subsequent edition, as and when it is known.

Printed at: Himani Print Solution, Badarpur, New Delhi-110044.

Preface

This book has been specially designed as per National Education Policy 2020 for students of B.Com. of Uttar Pradesh State Universities & Colleges.

Some special features of the book are:

- It caters to the needs of B.Com. (Semester I) students.
- It is written in a very simple and lucid style.
- It includes the latest examination questions of various Universities of Uttar Pradesh up to 2022.
- For better understanding of the subject, a variety of questions have been given in each chapter as solved illustrations and exercise questions.
- The subject matter of each chapter is self-explanatory in nature.

I am thankful for M/S Sultan Chand & Sons, New Delhi, for their efforts and co-operation in publishing the book in an elegant form. My thanks to Sandeep Negi for his valuable help in preparing manuscript and providing timely advice.

My special thanks to Prof. H.B. Singh for his enormous help, inspiration & guidance.

Since the road to improvement is never ending, I shall look forward and gratefully acknowledge all suggestions received.

S.P. Gupta

Contents

1. Introduction

1.1–1.46

Part-I

Meaning of Statistics	1.1
Origin and Growth of Statistics	1.2
Origin	1.2
Growth of Statistics	1.3
Indian Statistics	1.4
Statistics Defined	1.4
Statistics as Numerical Statements of Facts	1.4
Statistics as a Science	1.5
Statistics: Science or Art	1.5
Functions of Statistics	1.6
Scope of Statistics	1.7
Statistics and the State	1.7
Statistics and Business	1.8
Statistics and Economics	1.8
Statistics and Physical and Natural Sciences	1.9
Statistics and Research	1.9
Statistics and Other Uses	1.9
Limitations of Statistics	1.10
Distrust of Statistics	1.10
<i>Try Yourself</i>	1.11

Part-II

Statistical Enquiry	1.13
Planning the Enquiry	1.14
Specification of the Purpose	1.14
Scope of the Enquiry	1.14
The Unit of Data Collection	1.15
Sources of Data	1.16

Techniques of Data Collection	1.16
The Frame	1.16
Degree of Accuracy Desired	1.17
Miscellaneous Considerations	1.17
Executing the Enquiry	1.18
Setting up an Administrative Organisation	1.18
Design of Forms	1.18
Selection, Training and Supervision of Field Investigators	1.18
Control Over the Accuracy of the Field Work	1.18
Arrangement for Follow-up in Case of Non-Response	1.18
Presentation of Information	1.19
Statistical Analysis	1.19
Preparation of Report	1.19
<i>Try Yourself</i>	1.19
Part-III	
Primary and Secondary Data and Sources	1.20
Difference between Primary and Secondary Data	1.21
Choice between Primary and Secondary Data	1.21
Methods of Collecting Primary Data	1.21
Direct Personal Interviews	1.21
Indirect Oral Investigation	1.22
Information from Correspondents	1.23
Mailed Questionnaire Method	1.23
Schedules sent through Enumerators	1.24
Drafting the Questionnaire	1.25
Pre-Testing the Questionnaire	1.27
Specimen Questionnaire	1.27
Sources of Secondary Data	1.29
Published Sources	1.29
Unpublished Sources	1.30
Editing the Data	1.30
Editing Primary Data	1.30
Precautions in the Use of Secondary Data	1.31
<i>Try Yourself</i>	1.31
Part-IV	
Introduction to Sampling	1.33
Purpose of Sampling	1.34
Principles of Sampling	1.34
Principle of Statistical Regularity	1.34
Principle of Inertia of Large Numbers	1.35
Methods of Sampling	1.35
Judgment Sampling	1.36
Random Sampling	1.36

Stratified Sampling	1.38
Systematic Sampling	1.39
Multi-Stage Sampling	1.39
Quota Sampling	1.40
Size of the Sample	1.40
Sampling and Non-Sampling Errors	1.42
Sampling Errors	1.42
Non-sampling Errors	1.44
<i>Try Yourself</i>	1.44

2. Classification and Tabulation **2.1–2.28**

Introduction	2.1
Meaning of Classification	2.2
Objects of Classification	2.2
Types of Classification	2.2
Geographical Classification	2.2
Chronological Classification	2.3
Qualitative Classification	2.3
Quantitative Classification	2.4
Formation of a Discrete Frequency Distribution	2.4
Classification According to Class Intervals or Formation of Continuous Frequency Distribution	2.5
Principles of Classification.	2.7
Tabulation.	2.12
Difference between Classification and Tabulation.	2.12
Role of Tabulation	2.12
Parts of a Table	2.13
General Rules for Tabulation	2.14
Review of the Table	2.16
Types of Tables.	2.16
<i>Miscellaneous Illustrations</i>	2.20
<i>Try Yourself</i>	2.25

3. Diagrammatic and Graphic Presentation **3.1–3.42**

Introduction	3.1
Significance of Diagrams and Graphs	3.1
Comparison of Tabular and Diagrammatic Presentation	3.2
Difference between Diagrams and Graphs.	3.2
General Rules for Constructing Diagrams	3.3
Types of Diagrams	3.3
One-dimensional or Bar Diagrams.	3.3
Two-dimensional Diagrams	3.9
Three-dimensional Diagrams	3.14

Pictograms and Cartograms	3.14
Choice of a Suitable Diagram	3.15
Graphs	3.17
Technique of Constructing Graphs	3.17
Graphs of Time Series or Line Graphs	3.18
Graphs of One Variable	3.19
False Base Line	3.19
Graphs of Two or More Variables	3.20
Band Graphs	3.23
Graphs of Frequency Distributions	3.25
Histogram	3.25
Frequency Polygon	3.28
Smoothed Frequency Curve	3.28
Cumulative Frequency Curves or 'Ogives'	3.30
Limitations of Diagrams and Graphs	3.36
<i>Try Yourself</i>	3.36

4. Measures of Central Tendency

4.1–4.68

Meaning	4.1
Objectives of Averaging	4.1
Requisites of a Good Average	4.2
Types of Averages	4.3
Arithmetic Mean	4.3
Calculation of Arithmetic Mean	4.3
Correcting Incorrect Values	4.9
Calculation of Arithmetic Mean in Case of Open–end Classes	4.10
Mathematical Properties of the Arithmetic Mean	4.11
Merits and Limitations of Arithmetic Mean	4.13
Weighted Arithmetic Mean	4.13
Median	4.17
Calculation of Median	4.17
Calculation of Median when Class Intervals are Unequal	4.23
Mathematical Property of Median	4.24
Merits and Limitations of Median	4.24
Related Positional Measures	4.25
Computation of Quartiles, Deciles, Percentiles, etc.	4.25
Determination of Median, Quartiles, etc., Graphically	4.27
Mode	4.31
Calculation of Mode	4.32
Mode when Class Intervals are Unequal	4.37
Locating Mode Graphically	4.37
Merits and Limitations of Mode	4.39
Relationship among Mean, Median and Mode	4.39

Geometric Mean	4.40
Calculation of Geometric Mean	4.41
Specific Uses of Geometric Mean	4.43
Merits and Limitations of Geometric Mean	4.44
Harmonic Mean	4.45
Calculation of Harmonic Mean	4.45
Special Uses of Harmonic Mean	4.47
Merits and Limitations of Harmonic Mean	4.48
Relationship among the Averages	4.49
<i>Miscellaneous Illustrations</i>	4.49
Which Average to Use?	4.60
Median	4.61
Mode	4.61
Geometric Mean	4.61
Harmonic Mean	4.61
Arithmetic Mean	4.61
General Limitations of an Average	4.62
<i>Try Yourself</i>	4.62

5. Measures of Variation ||| **5.1–5.54**

Introduction	5.1
Objectives of Measuring Variation	5.2
Properties of a Good Measure of Variation	5.3
Methods of Studying Variation	5.3
Range	5.4
The Interquartile Range and the Quartile Deviation	5.5
The Mean Deviation	5.9
Computation of Mean Deviation – Individual Observations	5.9
The Standard Deviation	5.13
Relation between Measures of Variation	5.22
Coefficient of Variation	5.23
Variance	5.26
Merits and Limitations of Standard Deviation	5.27
Correcting Incorrect Values of Standard Deviation	5.27
Lorenz Curve	5.28
<i>Miscellaneous Illustrations</i>	5.30
Which Measure of Variation to Use?	5.48
<i>Try Yourself</i>	5.48

6. Skewness, Moments and Kurtosis ||| **6.1–6.46**

Introduction	6.1
Skewness Defined	6.2

Tests of Skewness	6.3
Measures of Skewness	6.3
Absolute Measures of Skewness	6.3
Relative Measures of Skewness	6.4
Karl Pearson's Coefficient of Skewness	6.4
Bowley's Coefficient of Skewness	6.5
Kelly's Coefficient of Skewness	6.6
Moments	6.27
Moments about Arbitrary Origin	6.29
Sheppard's Correction for Grouping Errors	6.30
Conditions for Applying Sheppard's Corrections	6.30
Measure of Skewness based on Moments	6.32
Kurtosis	6.33
Measures of Kurtosis	6.34
<i>Miscellaneous Illustrations</i>	6.36
<i>Try Yourself</i>	6.42

7. Correlation Analysis

7.1–7.42

Meaning	7.1
Utility of the Study of Correlation	7.2
Correlation and Causation	7.2
Types of Correlation	7.3
Methods of Studying Correlation	7.5
Scatter Diagram Method	7.5
Merits and Limitations of the Scatter Diagram Method	7.7
Graphic Method	7.7
Karl Pearson's Coefficient of Correlation	7.8
When Deviations are taken from an Assumed Mean	7.12
Correlation of Grouped Data	7.14
Assumptions of the Pearsonian Coefficient	7.16
Merits and Limitations of the Pearsonian Coefficient	7.16
Interpreting the Coefficient of Correlation	7.16
Coefficient of Correlation and Probable Error	7.17
Conditions for the use of Probable Error	7.17
Coefficient of Determination	7.18
Properties of the Coefficient of Correlation	7.19
Rank Correlation Coefficient	7.19
Where Actual Ranks are Given	7.19
Where Ranks are not Given	7.22
Equal Ranks	7.22
Merits and Limitations of the Rank Method	7.23
When to use Rank Correlation Coefficient	7.24
Concurrent Deviation Method	7.24

Merits and Limitations of Concurrent Deviation Method	7.25
<i>Miscellaneous Illustrations</i>	7.25
<i>Try Yourself</i>	7.35

8. Regression Analysis ||| **8.1–8.36**

Meaning and Significance of Regression.	8.1
Difference between Correlation and Regression Analysis.	8.2
Regression Lines	8.2
Regression Equations.	8.3
Regression Equation of Y on X	8.3
Regression Equation of X on Y	8.3
Deviations taken from Arithmetic Means of X and Y	8.5
Deviations taken from Assumed Means.	8.6
Regression Coefficients	8.8
<i>Miscellaneous Illustrations</i>	8.14
<i>Try Yourself</i>	8.30

9. Index Numbers ||| **9.1–9.56**

Introduction	9.1
Uses of Index Numbers	9.2
Classification of Index Numbers	9.3
Problems in the Construction of Index Numbers.	9.3
Methods of Constructing Index Numbers	9.6
Unweighted Index Numbers.	9.7
Simple Aggregative Method.	9.7
Simple Average of Relatives Method.	9.8
Weighted Index Numbers.	9.10
Weighted Aggregative Index Numbers.	9.10
Weighted Average of Relatives Index Numbers.	9.14
Quantity Index Numbers	9.17
Tests of Adequacy of Index Number Formulae	9.18
Time Reversal Test.	9.18
Factor Reversal Test.	9.19
Circular Test	9.20
The Chain Index Numbers	9.23
Steps in Constructing a Chain Index	9.23
Usefulness of the Chain Base Method	9.26
Limitation of the Chain Index	9.26
Base Shifting, Splicing and Deflating the Index Numbers	9.26
Base Shifting	9.26
Splicing.	9.28
Use of Index Numbers in Deflating	9.29

Consumer Price Index Numbers	9.31
Meaning and Need	9.31
Utility of the Consumer Price Indices	9.31
Construction of a Consumer Price Index	9.32
Methods of Constructing the Index	9.33
Precautions while using Consumer Price Index	9.36
<i>Miscellaneous Illustrations</i>	9.37
Limitations of Index Numbers	9.48
<i>Try Yourself</i>	9.49

10. Analysis of Time Series**10.1–10.44**

Introduction	10.1
Utility of Time Series Analysis	10.2
Components of Time Series	10.3
Secular Trend	10.5
Seasonal Variations	10.6
Cyclical Variations	10.7
Irregular Variations	10.8
Problems of Classification	10.8
Preliminary Adjustments before Analysing Time Series	10.9
Methods of Measuring Trend	10.10
The Freehand or Graphic Method	10.10
The Semi-average Method	10.12
The Moving Average Method	10.15
The Least Squares Method	10.19
Measurement of Seasonal Variations	10.23
Method of Simple Averages	10.24
Ratio-to-Trend Method	10.27
Merits and Limitation of the Ratio-to-Trend Method	10.29
Ratio-to-Moving Average Method	10.29
Link Relative Method	10.31
Uses and Limitations of Seasonal Index	10.34
<i>Miscellaneous Illustrations</i>	10.35
<i>Try Yourself</i>	10.40

Appendix**A.1–A.6**

I: Logarithms	A.1
II: Antilogarithms	A.3
III: Powers, Roots, and Reciprocals	A.5

Syllabus

National Education Policy – 2020
Common Minimum Syllabus
For All
U.P. State Universities

NEP
2020

UNIT – I

Evolution of Statistics in India, Contribution of Indian Statistics (Prasanta Chandra Mahalanobis). Introduction to Statistics: Meaning, Scope, Importance and Limitations, Statistical Investigation- Planning and Organization. Statistical Units, Methods of Investigation. Census and Sampling. Collection of Data- Primary and Secondary Data, Editing of Data, Classification of Data, Frequency Distribution and Statistical Series, Tabulation of Data, Diagrammatical and Graphical Presentation of Data.

UNIT – II

Measures of Central Tendency – Mean, Median, Mode, Quartile, Decile, Percentile, Geometric and Harmonic Mean; Dispersion – Range, Quartile Deviation, Mean Deviation, Standard Deviation and its Coefficient, Coefficient of Variation and Variance, Test of Skewness and Dispersion, Its importance, Coefficient of Skewness.

UNIT – III

Correlation – Meaning, Applications, Types and Degree of Correlation. Methods-Scatter Diagram, Karl Pearson’s Coefficient of Correlation, Spearman’s Rank Coefficient of Correlation, Concurrent Method. Probable Error & Standard Error.

UNIT – IV

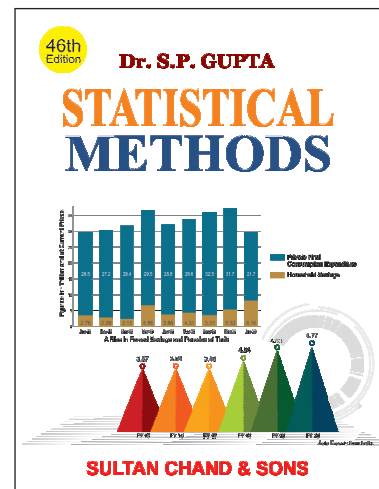

Index Numbers - Meaning, Types and Uses, Methods of constructing Price Index Number, Fixed – Base Method, Chain-Base Method, Base conversion, Base Shifting, Deflating and Splicing, Consumer Price Index Number, Fisher’s Ideal Index Number, Reversibility Test-Time and Factor; Analysis of Time Series: – Meaning, Importance and Components of a Time Series. Decomposition of Time Series: – Moving Average Method and Method of Least Squares.

STATISTICAL METHODS

Dr. S.P. Gupta

Salient Features

- The book has been written in a very simple and lucid style. The text material is self-explanatory and even the students learning statistics through distance education can follow it without much stress and strain.
- The treatment is non-mathematical in character and the readers can easily understand the text material without much taxing their minds.
- Besides good theory the book contains a large number of solved illustrations (to be exact, 885). These illustrations have been very carefully selected mainly from the latest examination question papers of various Universities all over India and neighbouring countries.
- This book is primarily meant to cater to the needs of under-graduate and post-graduate students of Commerce, Economics, Management and Professional Courses.

Contents

Volume I:

- Statistics – What and Why
- Organising A Statistical Survey
- Collection of Data
- Sampling and Sample Designs
- Classification and Tabulation of Data
- Diagrammatic and Graphic Presentation
- Measures of Central Value
- Measures of Dispersion
- Skewness, moments & Kurtosis
- Correlation Analysis
- Regression Analysis
- Association of Attributes
- Index Numbers
- Analysis of Time Series
- Interpolation and Extrapolation
- Vital Statistics
- Statistical Fallacies.

Volume II:

- Probability and Expected Value
- Theoretical Distributions
- Statistical Inference – Test of Hypothesis
- X² test and Goodness of Fit
- F-Test and Analysis of Variance
- Experimental Designs
- Statistical Quality Control
- Business Forecasting
- Partial and Multiple Correlation
- Statistical Decision Theory
- Non-Parametric Tests
- Revisionary Exercises
- Appendices.

BUSINESS STATISTICS AND OPERATIONS RESEARCH

Dr. S.P. Gupta • Dr. P.K. Gupta • Dr. Man Mohan

About the Book

The text book on “Business Statistics and Operations Research” provides a conceptual understanding of basic techniques of Statistics and Operations Research for solving managerial and business problems. The book discusses comprehensively the essential topics of quantitative decision-making by using various illustrations and examples. The book covers complete syllabus of B.Com. & BBA prescribed by most Indian Universities.

Salient Features

- Book is divided into two parts: Part I gives basic concepts of Statistics and Part II provides various Operations Research Techniques.
- There are detailed self contained chapters covering the syllabus completely.
- The language used in the text is simple and subject-matter has been presented in a lucid style.
- Special care has been taken to develop the concepts in an easy to understand manner.
- Chapter on Network Analysis is discussed in detail due to its importance in solving complex business problems.

Contents

Business Statistics

- Introduction
- Classification and Tabulation
- Diagrammatic and Graphic Presentation
- Measures of Central Tendency
- Measures of Variation
- Skewness, Moments and Kurtosis
- Correlation Analysis
- Regression Analysis
- Index Numbers
- Analysis of Time Series
- Tests of Hypotheses
- Chi-Square Test
- Analysis of Variance
- Statistical Quality Control

Appendix

Operations Research

- Operations Research — An Overview
- Linear Programming
- Linear Programming Problem – Solution Methods
- Duality in Linear Programming
- Transportation Problem
- Assignment Problem
- Network Analysis — PERT/CPM

About the Book

Statistical thinking is gradually becoming a part of our life. There is hardly any field in which statistical data & statistical techniques are not used. Keeping this in mind this book entitled 'Fundamentals of Business Statistics' has been especially designed for the students of Uttar Pradesh – National Education Policy course curriculum. It would help the readers in developing problem solving skills and apply statistical techniques in real life situations. Sufficient number of business oriented problems and latest examination questions have been included in the book.

Salient Features

- It caters to the needs of B.Com. (Semester I) students.
- It is written in a very simple and lucid style.
- It includes the latest examination questions of various universities of Uttar Pradesh up to 2022.
- For better understanding of the subject, a variety of questions have been given in each chapter as solved illustrations and exercise questions.
- The subject matter of each chapter is self-explanatory in nature.

About the Authors

Dr. S.P. Gupta (born 1942) has a brilliant academic record of teaching for more than 4 decades in Indian and Foreign Universities. He was a student of Shri Ram College of Commerce, University of Delhi. He obtained B.Com.(H) and M.Com. Degree with “Advanced Statistics” as specialization and taught for more than a decade in SRCC.

He was invited by the Tribhuvan University, Kathmandu, Nepal as visiting professor for a period of 2 years. He was also appointed visiting Professor in University of Milan, Italy for a period of 1 year. He attended prestigious International Teachers Program in Stockholm (Sweden) and Budapest, Hungary.

Dr. Gupta joined Faculty of Management Studies (FMS), University of Delhi from where he obtained Ph.D degree in Management and taught for about 3 decades. He has authored more than a dozen books in the field of Statistics for B.Com., M.Com., MBA, CA, ICWA courses etc. He was also Head & Dean, Faculty of Management Studies, University of Delhi for a period of 3 years.
